SCHOOL OF INTEGRATED BODYTHERAPY

Lower Limb Biomechanics and Orthotic Therapy:

The course is designed to provide practitioners with the biomechanical fundamentals to be able to prescribe basic orthotics upon completion of the 4 hour training. It will also lay the foundation to build lower limb biomechanical knowledge and the application of various orthotic treatment methods. Both understanding and getting started with orthotics is encompassed in the course.
The workshop includes fitted orthotics value $39. A show size will be required by all participants (US preferred)

* Over view of lower limb conditions
* How to assess for Lower Limb issues
* Assess Structural Leg Length
* What type of orthotic to prescribe for different conditions
* How to prescribe and Fit orthotics

Facilitator: Joshua Keilt (visit https://www.massageschool.com.au/our-teachers)
